

K!DS ON THE MOVE

Activity: Snowball Toss

Objective: Shovel your yard! The team with the least amount of “snow” on their side wins!

Materials Needed: 2 buckets, 2 mini shovels, beanbags or ping-pong balls

Directions:

- Split your students into two groups and divide your play area in half.
- Assign each group to a half, or “yard”.
- Line your “snowballs” up on the middle line.
- Have your students line up on the edge of their yards furthest from the center line.
- Start a timer for 5 minutes.
- When you say “go”, students will run to the center line and begin throwing snowballs into their neighbors yard.
- Once the timer stops, all balls must be on the ground. The yard with the fewest amount of snowballs wins!
